

Those Words
(Persuasion Theme)

Winds of season how they've aged your face
You look down at life with the turn of a page
A candidate's debate like you're off the boat
Just start believing and you've lost your vote

Those words will take you
Those words comfort too

An open mind? will you ever know wrong
You're listening but are you really so strong
With a sole conflict you'll take to the door
You never know what you want, but
you'll always want more

Take to your arms, take to your wealth
If you want some truth find it yourself
So deal the cards, roll for that seven
Better to rule in hell than serve in heaven
