

Those Words

Words and Music by G Pichler

Verse I

You need a loan but you don't have the time
You feel around for your last dime
I wish I could help you my friend
Just to help the two of you
the two of you, I know the two of you, quite well

Chorus

Those words will help you
Those words comfort too
Those words will take you

Verse II

a change of heart has aged your face
You look down and you turn the page
I wish I could help you my friend
Just to help the two of you
the two of you, I know the two of you, quite well

Verse III

an open mind do you ever know wrong
you're listening but were you really so strong
I wish I could help you my friend
Just to help the two of you
the two of you, I know the two of you, quite well
