

That's How It Was When I First Met You

Words and music by G. Pichler

Verse I

you were in heels and I wore cleats at an open café on a busy street

That's how it was when I first met you

but then you drank and laughed, had a silly grin, I called a cab and you got in

that's how it was, never thought it we could make it work

Verse Alternative I

And now I'm deep, within a hole, there's no way out, I can't face the crowd in front of you and me

I'm at a dead end, nowhere to go, nowhere to turn, I need to take the burn to stay ahead

Verse II

four weeks had past, and we had a plan, we traveled South and you met the clan

That's how it was, you were the perfect host

So I gifted my bed and sold my couch, I packed my clothes and we shared a house.

That's how it was, it's now just the two of us

Verse Alternative II

And now I'm deep, within a hole, there's no way out, I can't face the crowd in front of you and me

I'm at a dead end, nowhere to go, nowhere to turn, I need to take the burn to stay ahead

Verse III

One year has past, feels like a lock, down on one knee, we shopped for the rock,

That's how it was, until the end of time

We planned a date, you bought the dress, we sampled the wine, it became a mess

That's how it was, couldn't get by the prenupt
