

The Grasshopper Boogie

Words and music by R. Kowtko, G.E. Pichler, R. Prigge

Verse I

You know I met this girl just the other day
We exchanged hello's then she drove away
Well, She talked it up, acted the tease
So, I ended the talk and got right where it leads
And it seems like

Did I meet this girl before or was it just in a dream
It comes down to the floor, Yeah.

Chorus

You know the time is right, the time is right
For the boogie tonight

Verse II

You know I know this man lives at the campus lib
If you saw him, you'd presume that he had died
He followed the word, kept abstinence
But in the shower, he's just like all the rest, Christ
And it seems like

If I was just a fool, I'd think the world of him
But that was back in school, Yeah.

Chorus

You know the time is right, the time is right

For the boogie tonight

Verse III

I know this place, I can rely on

If I needed some space, I know where I can get some

Where the mountains get high, the lakes run wide

If I took you there, darling, it would riddle your sweet pretty mind. (And it seems like)

Have I seen this place before, or was it all in a dream

It's just outside the door. Yeah.

Chorus

You know the time is right, the time is right

For the boogie tonight

You know what's in your dreams, the grasshopper boogie
